The BST Stainless Steel Clipboards

Our stainless steel products are manufactured from 304 grade stainless steel which is highly resistant to oxidation, rust, stain and corrosion with the added benefits of being strong, highly durable and easy to clean. However, some corrosives and excessive exposure to salt can still degrade 304 stainless steel. 304 grade stainless steel is the most commonly used food grade stainless steel; it is used in food, dairy, brewing, hospital and sanitation applications.

Stainless Steel Clipboards Advantages

- ✓ Detectable by in-line metal detection systems & x-ray inspection systems
- ✓ Food safe, hygienic metals
- ✓ 304 Stainless Steel boards, heavy duty and resistant to corrosion
- ✓ Strong, Durable and hygienic constructions
- ✓ Can be used as part of HACCP and BRC procedures
- ✓ Displays due diligence in the prevention of foreign body contamination

Product and Packaging Information

A4 Portrait	ST9CA4SSMS	Clipboard Material	304 Stainless Steel
A4 Portrait w/ Hook	ST9CA4SSHMS	Thickness	0.8mm
A3 Portrait	ST9CA3P1SSMS	A4 Weight	0.65kg
A3 Landscape 1 Clip	ST6CA31SSMS	A3 Weight	1.05kg
A3 Landscape 2 Clips	ST9CA32SSMS	Pack Size	1
A4 Size	227mm x 337mm x 1mm	Detectability	Metal & X-Ray Visible
A3 Size	430mm x 350mm x 0.8mm	Commodity Code	73269098

Please note; A4 Stainless Steel clipboards are made with grade 304 stainless steel boards and grade 304 stainless steel clips. A3 Stainless Steel clipboards are made with grade 304 stainless steel boards and grade 430 stainless steel clips. The A4 Stainless Steel Clipboard with hanging hooks are made with grade 304 stainless steel boards, grade 304 stainless steel clips and grade 420 hanging hooks.

Metal Detectability

BST products manufactured from stainless steel - we would recommend using stainless steel test pieces to calibrate your equipment to detect stainless steel contaminants to your specification.

BST recommend that all our products be thoroughly tested on your metal detection system / x-ray inspection system by a trained and certified professional. Your equipment may need to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.

The information provided in this product specification sheet is based on our experience and knowledge to date and we believe it to be true and reliable. This information is intended as a guide for your use of our products, the use of which is entirely at your own discretion and risk. We, BS Teasdale & Son Ltd, cannot guarantee favourable results and assume no liability in connection with the use of our products. © 2022 BS Teasdale & Son Ltd.
